HELLO NATURE!

# OASIS

## 4

### BALANCED CONTENT OF NPK

**OASIS 4** is a liquid organo-mineral fertilizer with a balanced content of NPK (4-4-4) which improves plant development and fruit quality. Peptides and extracts of vegetal origin support the plant during climatic stresses and stimulate plant metabolism. The presence of organic matter and peptides makes it suitable also for tired, poor in organic substance or light soils. Due to the bond between organic elements and mineral ones its use is very flexible.

### COMPOSITION

|   |          |
|---|----------|
| Total nitrogen (N)  | 4 %      |
| > Organic nitrogen (N)                                      | 1,2 %    |
| > Ureic nitrogen (N)  | 1,6 %    |
| > Ammoniacal nitrogen (N)                                   | 0,6 %    |
| > Nitric nitrogen (N)                                       | 0,6 %    |
| Total phosphorus pentoxide (P <sub>2</sub> O <sub>5</sub> ) | 4 %      |
| Water soluble potassium oxide (K <sub>2</sub> O)            | 4 %      |
| Organic carbon (C)  | 15 %     |
| pH (1:5)  | 5,5      |
| Specific weight   | 1,2 kg/L |

### THE ADVANTAGES

- Improvement of nutrients intake
- Better yield and fruit quality
- Reduction of tiredness of the soils
- Antistress action
- Increase of soil biological fertility

**OASI RANGE** of products is specifically designed for fertigation or distribution on soil, providing organic compounds, nitrogen, nutrients and organic matter for better quality and yield. Good quality organic compounds and vegetal peptides offer important agronomic advantages, first of all best uptake of nutrients. This range improves the growth of plants and makes them more resistant to adverse climatic conditions.

*OASI RANGE is powered by LISIVEG, an exclusive production system designed by the R&D of Italtollina, based on the enzymatic hydrolysis of vegetal proteins. It allows to obtain PEPTIDES that, unlike individual free amino acids, have a more prominent, assured and natural biostimulant effect. LISIVEG® lies its strength in the innovative treatment technology that preserves even the weakest components (as Tryptophan) and maintains its activity unaltered.*

## USE AND DOSE

OASI RANGE is miscible with the most common phytosanitary products and fertilizers. Before using the product, we recommend testing on small surface for compatibility with other products. Don't mix with copper-based products, mineral oils and alkaline products.

Liquid fertilizer for fertigation.

|                                | Dose recommended |               | Stage   |
|--------------------------------|------------------|---------------|---|
|                                | Dosage per ha    | Watering in % |   |
| Vegetables                     | 10 L             | 0,5 %         | Doses depends on crop stage - every week after plantation with watersoluble |
| Orchards                       | 20 L             | 1,0 %         | 3 applications from fruit enlargement                                       |
| Soft fruits                    | 10 L             | 0,5 %         | From 1st fruit till end of harvest every week with watersoluble             |
| Vineyards                      | 10 L             | 0,5 %         | 3 applications from closing cluster   |
| Pineapple, banana, sugar canes | 20 L             | 1,0 %         | 4-6 applications every week with watersoluble                               |
| Kiwi                           | 10 L             | 0,5 %         | 4-6 applications every week with watersoluble                               |
| Turf                           | 10 L             | 0,5 %         | Every 15 days with irrigation   |
| Ornamentals                    |                  | 0,5 %         | Every 15 days with irrigation   |

## PACKAGING

20 L and 1200 kg IBC
