

ITALPOLLINA
HELLO NATURE!

OASIS

N22

GRADUAL AVAILABILITY OF N: HIGH YIELD!

OASIS N22 is developed to supply a high quantity of nitrogen of 4 different forms: organic, nitric, ureic and ammoniacal, mixed in a balanced ratio and 100% assimilable in all phases of the vegetative growth.

It also contains organic carbon and vegetal peptides, that improve the development processes of plants as they are the fundamental bases of every biological molecule. Due to the bond between elements in organic and mineral state its use is very flexible.

COMPOSITION

| | |
|---------------------------|-----------|
| Total nitrogen (N) | 22 % |
| > Organic nitrogen (N) | 1 % |
| > Ammoniacal nitrogen (N) | 8 % |
| > Nitric nitrogen (N) | 8 % |
| > Ureic nitrogen (N) | 5 % |
| Organic carbon (C) | 4 % |
| pH (1:5) | 4,7 |
| Specific weight | 1,24 kg/L |

THE ADVANTAGES

- Improvement of plant development
- Better yield and fruit quality
- Stimulation of vegetative growth
- Easy and flexible use and application
- Balanced formula with 4 types of N

OASI RANGE of products is specifically designed for fertigation or distribution on soil, providing organic compounds, nitrogen, nutrients and organic matter for better quality and yield. Good quality organic compounds and vegetal peptides offer important agronomic advantages, first of all best uptake of nutrients. This range improves the growth of plants and makes them more resistant to adverse climatic conditions.

OASI RANGE is powered by LISIVEG, an exclusive production system designed by the R&D of Italtollina, based on the enzymatic hydrolysis of vegetal proteins. It allows to obtain PEPTIDES that, unlike individual free amino acids, have a more prominent, assured and natural biostimulant effect. LISIVEG® lies its strength in the innovative treatment technology that preserves even the weakest components (as Tryptophan) and maintains its activity unaltered.

USE AND DOSE

OASI RANGE is miscible with the most common phytosanitary products and fertilizers. Before using the product, we recommend testing on small surface for compatibility with other products. Don't mix with copper-based products, mineral oils and alkaline products.

Liquid fertilizer for fertigation or foliar application.

| Crops | Dose recommended | |
|---------------------|------------------|---------------|
| | Dosage per ha | Watering in % |
| Fertigation | 5 L | 0,25 % |
| Orchards, vineyards | 10 L | 0,50 % |
| Soft fruits | 5 L | 0,25 % |
| Wheat | 5 L | 0,25 % |
| Turf | 10 L | 0,50 % |
| Ornamentals | | 0,50 % |

PACKAGING

20 L and 1200 kg IBC
