

ITALPOLLINA
HELLO NATURE!

OASI

CALCIUM-MAGNESIUM

THE SOLUTION FOR ROOT GROWTH

OASI CALCIUM-MAGNESIUM is ideal to stimulate roots thanks to the presence of calcium, magnesium and vegetal peptides. It also favours the bioavailability of calcium and other micronutrients and meso elements in the soil, contrasting the soil salinity excess. Peptides protect Ca and Mg (to prevent runoff) in order to help their assimilation by the plant.

COMPOSITION

Calcium oxide (CaO) water soluble	9 %
Magnesium oxide (MgO) water soluble	1 %
pH (1:5)	4
Specific weight	1,28 kg/L

THE ADVANTAGES

- High efficiency Ca and Mg
- Prevention of physiological disorders related to Ca-Mg deficiency
- It contrast the excess of soil salinity
- Stimulation of root system
- Improvement of yield and quality of fruits and vegetables

OASI RANGE of products is specifically designed for fertigation or distribution on soil, providing organic compounds, nitrogen, nutrients and organic matter for better quality and yield. Good quality organic compounds and vegetal peptides offer important agronomic advantages, first of all best uptake of nutrients. This range improves the growth of plants and makes them more resistant to adverse climatic conditions.

OASI RANGE is powered by LISIVEG, an exclusive production system designed by the R&D of Italtollina, based on the enzymatic hydrolysis of vegetal proteins. It allows to obtain PEPTIDES that, unlike individual free amino acids, have a more prominent, assured and natural biostimulant effect. LISIVEG® lies its strength in the innovative treatment technology that preserves even the weakest components (as Tryptophan) and maintains its activity unaltered.

USE AND DOSE

OASI RANGE is miscible with the most common phytosanitary products and fertilizers. Before using the product, we recommend testing on small surface for compatibility with other products. Don't mix with copper-based products, mineral oils and alkaline products.

Liquid fertilizer for fertigation.

Crops	Dose recommended	
	Dosage per ha	Watering in %
Fertigation	10 - 20 L	0,5 - 1%

Do not mix with phosphorus - based products.
