

LEAF LIQUID INTEGRATORS

MYR RANGE is based on micronutrients and meso elements complexed with vegetal peptides with the aim of prevent and/or cure nutritional deficiencies and improve yield and

MYR RANGE guarantees the highest efficiency and a quick absorption, without losses due to insolubilization. It is the result of a careful research on the mechanisms of vegetal absorption in order to prevent phenomena of phytotoxicity caused by micronutrients.

The peptides of **MYR** are quickly absorbed and then incorporated in the lymph: they can carry out their functions in stressed plants in a few hours, allowing a remarkable saving of energy and permitting the recovery of the optimal conditions for development. Oligonutritional complexes MYR have a stable structure also in alkaline environment, which

MYR RANGE is powered by LISIVEG, an exclusive production system designed by the R&D of

Italpollina, based on the enzymatic hydrolysis of vegetal proteins. It allows to obtain **PEPTIDES** that, unlike individual free amino acids, have a more prominent, assured and natural

biostimulant effect. LISIVEG® lies its strength in the innovative treatment technology that preserves even the weakest components (as Tryptophan) and maintains its activity unaltered.

MYR IRON

MYR IRON is designed to prevent and treat iron deficency. The particular composition of the product makes iron easily assimilable. Its action is fast and long lasting.

Organic Nitrogen (N)	3 %
Iron (Fe) water soluble	5 %
Organic carbon (C)	20 %
pH (1:5)	4,8
Specific weight	1,27 kg/L

THE ADVANTAGES

- Prevention and treat of iron chlorosis
- Intake of iron totally assimilable
- Fast-acting and long lasting
- Nutritional and antistress action

USE & DOSE

All dosages provided are in standard conditions, dosages and modes of application are to be determined on the basis of the requirements and the nutritional status of the crop. We recommend the application in the coolest hours of the day (morning or evening) to obtain maximum absorption by the leaves and the best eff ectiveness.

MYR range can be mixed with the most common phytosanitary products and fertilizers on the market. Before using we recommend testing on a small surface for compatibility with other products.

Liquid fertilizer for foliar application (on leaves).

Crops	Light deficiency Dosage per ha Dosage per hl		High deficiency Dosage per ha Dosage per hl	
Vegetables, orchards, soft fruits, vineyards	3 L	300 mL	5 L	500 mL
Sugar canes, ananas, bananas, kiwi	3 L	300 mL	5 L	500 mL
Nursery		300 mL		500 mL
Turf	3 L		5 L	
Ornamentals	3 L	300 mL	5 L	500 mL

Repeat application every 10 days.

PACKA SING 1 – 5 – 20 L
