

NUTRIMYR

4-4-10

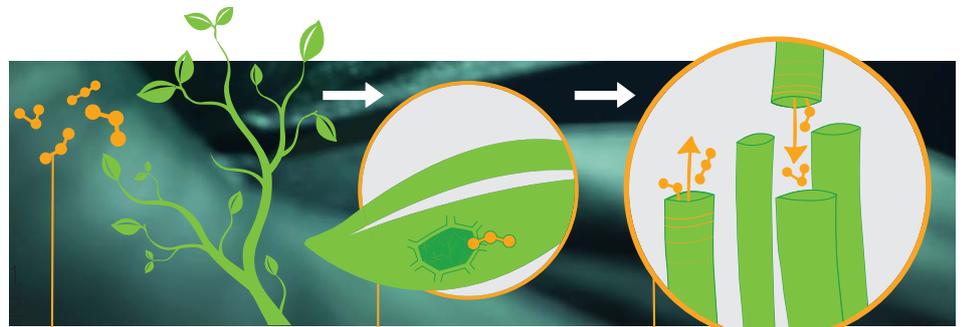

ITALPOLLINA
HELLO NATURE!

NUTRITIONAL BALANCE FOR QUALITY HARVESTS

NUTRIMYR NPK 4-4-10 nourishes the plant and stimulates resistance against abiotic stress such as heat, cold, drought etc.. The high content of potassium (Chloride free) helps maturation and improves the quality of fruits.

ENHANCED FOLIARS FOR A COMPLETE AND BALANCED NUTRITION

1) Nutrients arrive on leaves

2) Foliar absorption

3) Translocation of the nutrients inside the plants.

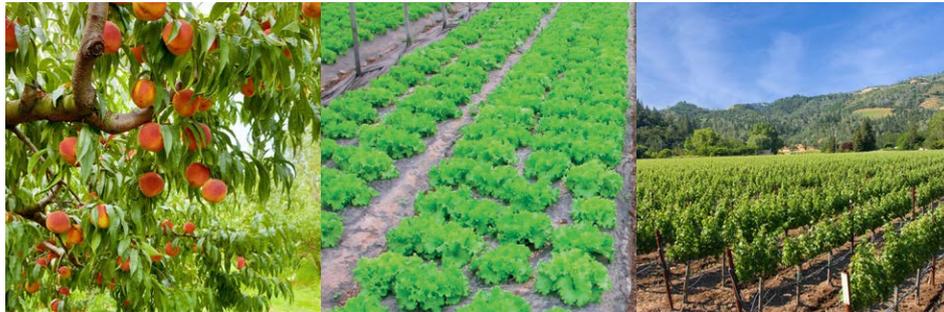

COMPOSITION

Total nitrogen (N)	4%
> Organic nitrogen (N)	1%
> Ureic nitrogen (N)	1%
> Nitric nitrogen (N)	2%
Phosphorus pentoxide (P ₂ O ₅) total	4%
Potassium oxide (K ₂ O) water soluble	10%
Boron (B) water soluble	0,05%
Manganese (Mn) chelated with EDTA water soluble	0,1%
Molybdenum (Mo) water soluble	0,02%
Zinc (Zn) chelated with EDTA water soluble	0,05%
Organic carbon (C)	10,5%
pH (1:5)	3,7
Specific weight	1,23 kg/L

THE ADVANTAGES

- Improve of quality, consistency and shelf life of fruits
- Increase of yield and quality of the harvest
- Stimulation of the formation of chlorophyll
- Improvement of the photosynthetic activity
- Antistress action

NUTRIMYR RANGE is powered by LISIVEG®, an exclusive production system designed by the R&D of Italtollina, based on the enzymatic hydrolysis of vegetal proteins. It allows to obtain PEPTIDES that, unlike individual free amino acids, have a more prominent, assured and natural biostimulant effect. LISIVEG® lies its strength in the innovative treatment technology that preserves even the weakest components (as Tryptophan) and maintains its activity unaltered.

USE AND DOSE

All dosages provided are in standard conditions, dosages and modes of application are to be determined on the basis of the requirements and the nutritional status of the crop.

We recommend the application in the coolest hours of the day (morning or evening) to obtain maximum absorption by the leaves and the best effectiveness.

NUTRIMYR range can be mixed with the most common phytosanitary products and fertilizers on the market. Before using we recommend testing on a small surface for compatibility with other products.

Liquid fertilizer for foliar application (on leaves).

Crops	Dose recommended	Stage
	Dosage per ha	
Vineyards	5 L	From berries increasing until veraison 2-3 applications
Orchards, horticulture	5 L	During the process of fruit growth 2-3 applications
